Choosing the perfect mattress support

The National Bed Federation recommends that a bed is changed every seven years. People often keep them well beyond this and then have to replace them for all the wrong reasons: back pain, worn cover, tired fillings, exposed springs and lack of support.

Take your time to choose...

Before you decide on a specific model it is important to try out a few, as each mattress within the Classic Collection has a different feel due to the varying spring counts, fillings and divan bases. Your mattress should give your entire body support and keep your spine as straight as possible. When choosing, everyone will have a different opinion of what is right for them; to help finalise that choice it is important to follow these simple guidelines:

- Allow yourself plenty of time when testing out the mattresses.
- Remove all outerwear and lie in your normal sleeping position as you would at home for at least five minutes.
- If you share a bed it is very important you both try it and that you choose a mattress that is supportive and comfortable for both of you.
- What feels comfortable for one person is not necessarily comfortable for another person.
- You need to make sure you have enough room to stretch out and freely turn over; size does matter, so always try to purchase the biggest bed that will fit in your room.

Too Soft

You will find it hard to slide your hand between the mattress and the small of your back.

Correct Support

The mattress conforms to your body contours whilst the spine remains straight. Your hand will slip snugly between the mattress and the small of your back.

Too Firm

Your hand will have lots of space between the mattress and the small of your back.

Purchasing the best bed possible is a great investment for your health and quality of life

A better night's sleep makes for a better day awake

Mattresses may look similar but the differences are on the inside

A carefully chosen blend of fillings is layered on top of the pocket spring core to create each of the different mattresses in the Classic Collection.

Individual springs encased in their own separate pockets move independently to provide the best postural support. The individual pocket springs follow and support your body shape and weight even as you move around. Only the springs directly underneath your body compress and gently cradle you for the most comfortable sleep. A pocket sprung mattress is a great choice if you or your partner tends to turn a lot during the night. Higher spring counts offer further supportive comfort. In mattresses with a double layer of pocketed springs, the upper springs shape to the body contours while the lower layer absorbs changes in weight distribution for the ultimate in comfort and support.

With over a 155 years' experience Relyon understands the different attributes of springs, upholstery fillings and fabrics used to create supremely comfortable beds.

Breathable fabrics and precisely placed vents help to release moisture and increase freshness, and this will maintain a consistent sleeping temperature. Mattress borders are side stitched to provide greater support. Hand-tufting is a traditional skill which ensures that all fillings are secured to provide the perfect finish to your mattress.

Natural fillings

Cashmere and silk layer

Cashmere hair and the finest silk fibres are blended into a durable insulation layer. This layer also provides a supportive feel.

Lambswool layer

Lambswool is blended into a blanket-like layer and used as a soft and insulating upholstery layer for added comfort.

Cotton blend

A combination of cotton and luxurious soft white fibre is formed into a deep layer for guaranteed quality and softness.

Mattress features

Firm edge support

Firmer tension pocketed springs around the perimeter add strength to the edge of the mattress to allow you to use the whole surface as a sleeping area.

Pillowtop

A soft comfort layer of fillings above the supportive mattress to provide a more sumptuous level of additional comfort.

Foam and fibre fillings

Latex

Latex is a premium quality, naturally derived material. It's exceptionally durable and resilient with natural elasticity for bounce. Latex has anti-allergenic, anti-bacterial and anti-microbial properties.

Super soft Reflex® foam

This foam has been especially designed to produce the softest possible feel; it is highly resilient and has been treated with fire retardancy for your safety.

Resilient foam

Provides a resilient and supportive surface feel.

Foam

Provides excellent levels of comfort and support.

Soft white fibre

A dust free filling providing softness and resilience.

Double density fibre

A resilient pad, firmer at the base and softer at the top to help provide posture aligning comfort.

How do you like yours? Natural vs foam? Soft vs firm?

Elegance

A sumptuous pillowtop mattress providing superb levels of comfort, upholstered with pressure relieving natural latex for a luxurious yet supportive feel.

Divan options

One of the secrets of a great night's sleep is the quality of support given to your mattress. Relyon offers two different types in a variety of options. The two main types are sprung edge and padded top. These divan types work with your chosen mattress to provide a softer or firmer and supportive feel.

Sprung edge divan for a softer feel

A timber frame supports an open coil spring unit coupled with cane edging to provide a flexible support for the mattress. Upholstered in your choice of fabric.

All divans have high quality timber frames with strong wooden corner blocks for the feet to fix into as well as smooth operation runners for the ease of opening and closing the drawer.

If you select a divan with drawers please consider if your room has enough space to be able to open them: divans with drawers will need at least 40cm surrounding space from the side of the bed to enable you to pull the drawers out.

Drawers for single divans (90 x 190cm) are available in left or right hand opening to suit the layout of your room.

Please inform your retailer which you would like when ordering.

Padded top ottoman divan options

The ottoman divan is an ideal solution if space is limited in your bedroom as it provides generous storage space for linen, blankets, towels or clothes. The base lifts easily with the help of gas rams and hinges.

Single

90 x 190cm

- Choice of left or right hand opening upon assembly.
- Two gas rams and hinges.
- One storage compartment.
- Non-slip mat to keep mattress in place when ottoman lid is up to access stored items.
- Silver castors.

Double and king size

135 x 190cm and 150 x 200cm

- Choice of left or right hand opening upon assembly.
- Four gas rams and hinges.
- Two storage compartments.
- Non-slip mat to keep mattress in place when ottoman lid is up to access stored items.
- Silver castors.

Super king

Bed fixing

A standard headboard design with the upholstered headboard panel on long wooden struts. The wooden struts are the most common form of fitting a headboard to your bed allowing you to position the upholstered panel in line and above the mattress.

Slim

A floor standing headboard design that neatly aligns with the width of your mattress and divan. Integrated wooden struts included to allow you to fit the headboard to your divan base.

Wide

A floor standing headboard design that is stylishly wider than the width of your mattress and divan adding 7.5cm either side of you mattress and divan. Integrated wooden struts included to allow you to fit the headboard to your divan base.

Extra height

Extra height headboard creates a centre piece for large bedrooms. Standing at an impressive 135cm the extra height headboard allows the details of the headboard to be showcased even when the bed is fully dressed with bed linen, pillows and cushions.

Extra wide

A floor standing headboard design that is stylishly wider than the width of your mattress and divan adding 15cm either side of you mattress and divan. Integrated wooden struts included to allow you to fit the headboard to your divan base.

Statement height

Statement height is the tallest headboard on offer which creates a showpiece focal feature for extra spacious bedrooms that are large enough to house it. Standing at a commanding 161cm it enables the headboard to still be on show even when your bed is fully dressed with bed linen, pillows and cushions.

Fabric options

A selection of twenty six fabrics. Choose from textured fabrics to patterned upholstery fabrics. Whether you are looking for a classical designed divan set in a neutral colour or a coloured statement divan set you can find a fabric to suit your style.
