

# Relyon®

The best beds in the world

*Heritage  
collection*

Made in the United Kingdom

Hand Made by Somerset Craftsmen since 1858

**Manufacturing  
Guild Mark**

*Relyon the best beds in the world  
1858 - present day*

# Relyon History

Renowned for creating the best beds in the world, Relyon has a reputation that has been earned and protected for over 155 years. Relyon - the very name inspires trust and confidence in a truly reliable, eminently English company with an enviable reputation and heritage. The company has been making beds since 1858. Using the very best quality materials, we invest maximum care and craftsmanship in every product. Relyon's famously high standards, constantly monitored by the strictest quality control system and our own in-house laboratory, are renowned throughout the industry. Every Relyon bed is a tribute to a continued commitment to quality and an absolute loyalty to customers.

## NBF Approved Member

Relyon are NBF Approved Members which means you can buy Relyon product in confidence, safe in the knowledge that what you buy is safe, clean and honest. To achieve NBF Approved Member status Relyon are independently audited against the NBF's strict Code of Practice criterias which cover three areas: flammability, health and hygiene, and trade descriptions.

## Relyon was the first bed company to be awarded the prestigious Manufacturing Guild Mark

The Guild Mark is only awarded to manufacturers that meet the highest standards of design, workmanship, materials and function. We remain one of only five major manufacturers to have achieved Guild Mark status and we are proud that our designs carry a guarantee of the very best quality.

**Manufacturing  
Guild Mark**

Awarded by The Worshipful Company of Furniture Makers  
of the City of London [www.furnituremakers.org.uk](http://www.furnituremakers.org.uk)

## Relyon's 5 Year Guarantee

All our mattresses and divans are hand built to customer order and we are proud to guarantee them for a full 5 years from the date of purchase.

# *Your Comfort is Our Top Priority*

## Choosing the right mattress for you

Beds can be large or small, firm or soft, however, if they are uncomfortable your health and wellbeing suffer. The National Bed Federation recommends that a bed is changed every ten years. People often keep them well beyond this and then have to replace them for all the wrong reasons such as back pain, worn cover, tired fillings, exposed springs and lack of support. A bed is rarely changed because it has reached the end of its ten year life span.

We spend roughly a third of our lives in bed. Choosing a bed is an important decision to make and is a very personal choice.

Finding the right combination of mattress and divan will give you the correct level of support and a better and more restful night's sleep.

## The correct way to choose your mattress.

To test a mattress lie on your back and try to slide your hand into the small of your back:

- Too Soft – You will find it hard to slide your hand into the small of your back
- Correct Support – Your hand will slip snugly between the mattress and the small of your back
- Too Firm – Your hand will have lots of space between the mattress and the small of your back

The only certain way to test a bed is to lie on it for an extended period on both your back and side.

Many people think that buying a new mattress will give them a brand new bed. However, it is very important to establish the condition of your existing divan. If it is old, the new mattress will follow the divan's worn contours and will bring no improvement. Similarly, different types of divans will vary your mattress's feel.

# *Mattress Support*

Too Soft

You sink deeply into the mattress and your spine is not support.

**Correct Support**

**The mattress conforms to your body contours  
whilst the spine remains straight.**

Too Firm

The mattress does not shape to your body contours.

## *Getting a Good Night's Sleep*

Creating the right environment for a good night's sleep is crucial. This starts with the single most important piece of furniture your bed. We produce a wide range of mattresses using long established traditional manufacturing methods such as:

**Hand Side Stitching** Our skilled craftsmen use upholstery needles to hand side stitch our mattress borders with as many as 5 rows of stitching. This lengthy process gives the necessary rigidity and support to the mattress walls, extending the sleeping area to the edge of the mattress.

**Centre Tied Pocket Springs** Individually hand nested pocket springs are centre tied with linen cord to provide independent support.

**Hand Tufting** This traditional skill ensures all loose fillings are secured to provide the perfect finish to your mattress.

**Flag Stitching** All our mattress handles are flag stitched for superior strength and reliability.

## Divan Options

One of the secrets of a great night's sleep is the quality of support given to your mattress. We manufacture a wide selection of divan options to suit all requirements.

Hand Stitched Pocketed Divan

Hand Lashing

**Hand-Side-Stitched Pocketed Divan** The ultimate in luxury and support, this dual sprung divan benefits from a layer of heavy-duty open coil springs topped with a layer of pocketed springs. We have further enhanced this divan with traditional hand tufting and two rows of hand side stitching. Available on the Emperor only. Shown above : Hand Stitched Pocketed Divan.

**Hand-Lashed Skirted Divan** Individual heavy-duty open coil springs are each hand tied to the divan frame with waxed linen cord to provide outstanding support. Shown above: Hand Lashing.

**Pocketed Divan\*** Pocketed springs sit on top of a solid timber frame to create a luxurious feel that works in harmony with the mattress.

**Sprung Edge Divan\*** A timber frame supports an open coil spring unit coupled with cane edging to provide comfort and support for the mattress.

Sprung Edge Divan

Ottoman Divan (Firm Edge)

**Firm Edge Divan on Legs** Combines all the comfort and support of a sprung divan with a firm edge, solid wooden legs and a lower overall height.

**Padded Top Divan\*** This divan provides a firmer feel with a ventilated top layer upholstered for subtle cushioning.

**Drawers** available on divan types marked \* Please refer to page 22 for further information.

**Ottoman Divan** For those rooms that require additional storage space we are able to offer a simple solution without compromising style or comfort. An ingenious mechanism, using gas rams, assists with opening the ottoman and a non slip mat keeps the mattress perfectly in place when accessing your stored items. The product is finished beautifully both inside and out and can be ordered as a firm edge or a padded top. Also available in a wide selection of colours\*.

\* Please refer to page 25 for all colour choices.

## *Mattress Fillings*

As a part of our quest to find the finest materials, we have searched the corners of the globe to bring you the ultimate sleeping experience.

**Pocketed Springs** The finest high tensile steel is wound into individual springs which are sewn into their own hard wearing pockets. Each pocketed spring is hand nested in a honeycomb pattern and hand tied with linen cord. Pocketed springs shape perfectly to individual body contours due to each spring having its own independent action. In mattresses with a double layer of pocketed springs, the upper layer of springs shape to the body contours while the lower layer absorbs changes in weight distribution for the ultimate in comfort and support.

### **Hand Teasing**

This traditional craft of gently separating fibres by hand enhances the inherent attributes of natural fillings. This meticulous process ensures an even distribution of the fillings, giving an opulent feel.

### **Merino Wool**

One of the softest and most sumptuous wools, it is also used for its excellent hydroscopic properties that allow body moisture to evaporate.

### **Lambswool**

Lambswool is a natural insulator providing coolness in the summer and warmth in the winter. Offering superb comfort, it also has hydroscopic properties encouraging the evaporation of body moisture.

### **Mohair**

This luxury fibre from Angora goats provides durability, insulation and softness.

### **Horse Hair and Traditional Hair**

Natural hair provides a durable insulating layer of natural resilience and luxurious loft and gives optimum support.

### **Cashmere**

Cashmere is the wool of the Kashmir goat. It has excellent insulating properties and is used to help regulate a comfortable sleeping environment.

### **Cashmere and Silk Layer**

Cashmere hair and the finest silk fibres are blended into a durable insulation layer. This layer also provides a supportive feel.

### **Cotton**

Supreme white cotton is formed into a deep layer for guaranteed quality and softness.

### **Latex**

Latex is a natural filling sourced from rubber trees. It is extremely durable and anti-microbial, and also provides an extremely sumptuous feel.

### **Soft White Fibre**

This fibre offers a dust free, soft resilience.

Our commitment to research and development ensures that all our springs, fillings and fabrics provide superb resilience, comfort and support, resulting in a luxurious night's sleep.

 support.

# Individuality

Relyon's time honoured traditional manufacturing methods allow us to offer complete individuality. Whether you require longer lengths, wider widths, tension options or zip and link mattresses our skilled craftsmen can create the perfect bed for your needs.

Please refer to the back of the brochure for a full table of options available.  
Shown left: Zip and link mattress option.

## Mattress Sizes

When choosing your new bed it is important you consider the size of your bed.

Standard Single	Small Double	Standard Double	Extra Length Double	Standard Kingsize	Extra Length Kingsize	Standard Super Kingsize	Zip and Link	
90x190cm	120x190cm	135x190cm	140x200cm	150x200cm	160x200cm	180x200cm	75x190cm 90x190cm	75x200cm 90x200cm

Non standard sizes are available to suit individual requirements. (Please refer to the specification table on page 27).

# Storage Options

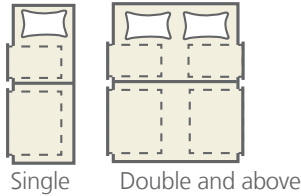

To allow you to add valuable storage to your bedroom we have 5 different storage options.

## 4 Large Drawer Set

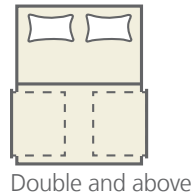

Single Double and above

## 2+2 Drawer Set (2 Large and 2 Smaller Drawers)

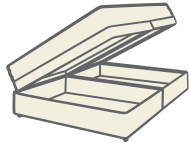

Single Double and above

## 2 Drawer Set (2 Large Drawers)

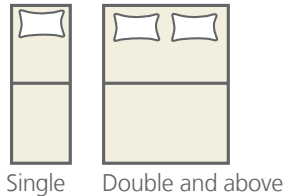

Double and above

## Ottoman

Single, Double and Kingsize only

## Non Storage

Single Double and above

Shown below: Timber drawers with dove tail joints.

## Drawer Options

All our drawers are constructed with solid hard wood timber, dove tail joints for strength and smooth operation runners. Drawers for 90x190cm divans are available in left or right hand opening to suit the layout of your room. If you select a divan with drawers please consider if your room has enough space. Divans with drawers will need at least 40cm surrounding space from the side of the bed to enable you to pull the drawers out.

Divan Drawer Specifications	Width	Length	Height for internal storage	Storage weight limit
Large Timber Drawers with Dovetail Joints	78.3cm	52.5cm	15cm	25kg
Small Timber Drawers with Dovetail Joints	40.5cm	52.5cm	15cm	25kg

## Ottoman Options

For those rooms that require additional storage space we offer a simple solution without compromising on style or comfort. The ottoman divan provides an impressive amount of storage space. A 150cm ottoman divan has 6 times more space than a 2 drawer divan. An ingenious mechanism, using gas rams, assists with opening the ottoman and a non slip mat keeps the mattress perfectly in place when accessing your stored items. The product is finished beautifully both inside and out and can be ordered as a firm edge or a padded top. Also available in a wide selection of colours\*.

\* Please refer to page 25 for all colour choices.

Ottoman Divan Specifications	Height including castors	Height for internal storage	Maximum height with the lid open (including mattress)	Storage weight limit
Firm Edge Ottoman Divan	44cm	22cm	151cm	25kg per compartment half
Padded Top Ottoman Divan	41.5cm	22cm

## Legs and Castors

Our divans come with either large shepherd castors\*, silver castors or beech cone legs as standard according to the type of divan you purchase. Please see the table above. However, for a small supplementary charge you can choose to have silver glides.

\*Large shepherd castors are exclusively used on hand side stitched pocketed divans and sprung edge hand lashed skirted divans. Due to the beautiful tailoring and the divan skirts on these two divan types the large shepherd castors are not on view. Please refer to page 23 for photographs of all the divan type available in the Heritage collection.

# Headboards

A headboard is the all-important finishing touch that adds flair and interest to your bed and bedroom.

## Harlequin

An elegant upholstered headboard featuring four rows of deep buttons and pleating arranged in a sophisticated diamond pattern. Available in all fabrics with a choice of heights and widths:

- Extra Height Slim.
- Extra Height Wide.
- Statement height in extra wide.

## Deep Buttoned Extra Height

An impressive design finished in a square panel effect with two rows of buttons stands taller than the standard deep buttoned headboard.

Available in all fabrics with a choice of widths:

- Extra height slim
- Extra height wide

## Deep Buttoned

A striking design finished in a square panel effect with a row of buttons.

Available in all fabrics with a choice of heights and widths:

- Bed fixing
- Standard height slim
- Standard height wide

## Contemporary

Stylish and bold design finished in a rectangular panel effect divided by a two button detail. Available in all fabrics with a choice of heights and widths:

- Bed fixing
- Standard height slim
- Standard height wide

## Modern

Simple and modern in an upholstered padded finish.

Available in all fabrics with a choice of heights and widths:

- Bed fixing
- Standard height slim
- Standard height wide

## Classic

An elegant arched design in an upholstered padded finish.

Available in all fabrics with a choice of heights and widths:

- Bed fixing
- Standard height slim
- Standard height wide

## Bed Fixing

A standard headboard design with the upholstered headboard panel on long wooden struts. The wooden struts are the most common form of fitting a headboard to your bed allowing you to position the upholstered panel in line and above the mattress.

## Slim

Is a floor standing headboard design that neatly aligns with the width of your mattress and divan. Integrated wooden struts included to allow you to fit the headboard to your divan base.

## Wide

Is a floor standing headboard design that is stylishly wider than the width of your mattress and divan adding 7.5cm either side of your mattress and divan. Integrated wooden struts included to allow you to fit the headboard to your divan base.

Duck Egg 3524

Lilac 3525

Charcoal 3526

# Bedstead Mattresses

Relyon also offer a collection of bedstead mattresses which have been designed with the additional needs of slatted bases in mind.

The wider the space between each slat puts greater strain on the mattress when it is being used, so the type of springs chosen and the fillings used are all selected to prevent the mattress performance being impaired. Even so, these mattresses have been designed for use on slats with a gap no greater than 7cm (2.75") between them.
